

SECRET/NOFORN - HANDLE VIA SKEET CHANNELS ONLY

PROJECT SUN STREAK (U)

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: 0018

SESSION NUMBER: 1

DATE OF SESSION: 6 MAY 88

DATE OF REPORT: 6 MAY 88

START: 0919

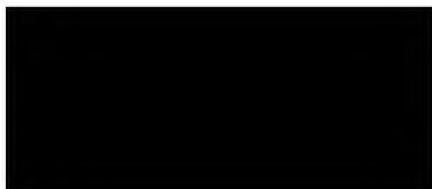

END: 0939

METHODOLOGY: CRV

VIEWER IDENTIFIER: 025

1. (S/NF/SK) MISSION: Stage 1, Phase 1 training. Site was Chicago.
2. (S/NF/SK) VIEWER TASKING: Coordinates 4145/8745.
3. (S/NF/SK) COMMENTS: 025 is still struggling with the ideogram, waiting for it to become spontaneous. It did in fact do this on the 10th iteration of the coordinates, but to such a small degree that it did not have a noticeable impact on the trainee.
The trainer is still in the process of teaching the trainee many of the descriptive terms for the site motion; 025 is surprised (and a little annoyed) that something cannot, for example, be said to be simply "up" or "down", but rather must be described the exact way in which it was perceived, i.e., "vertical up--angle across", "sloping up--curving across", "incline up--peaking--incline down", etc.
4. (S/NF/SK) EVALUATION: [31] 025's first "angle" ideogram.
